

Windy IE Foam

Standard equipment:

- Flexible hose 2,5 m

- Carpet tool kit

- Injection/extraction nozzle

- Fixed brush

- Detergent lance

- 2 x 3,5 m detergent hose for lance

- Washable filter

- Flat lance

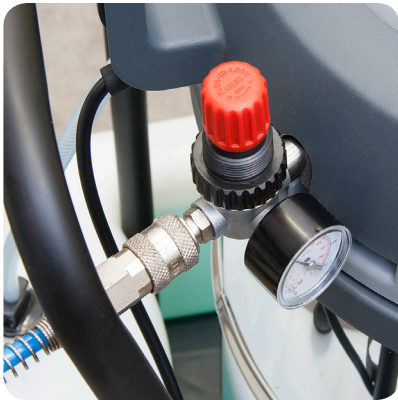

Optional:

- 5.212.0022 - Paper collector filter set -10 pcs
- 5.209.0177 - Cloth filter for fine dust
- 5.212.0093 - Nylon filter
- 0.110.0020 - Antifoam device
- 3.697.0036 - Anti-foaming detergent for recovery tank
- Acid-based detergent for toilets
- Alkaline-based detergent alimentary environments
- Detergent for fabrics and carpeting

Equipped with:

- 2 high efficiency by-pass motors
- Suction system with by-pass cooling
- Stainless steel tank
- Detergent pump (48W – 0,7-1 l/m – 15 bar)
- Professional closing hooks
- Static electric shock inhibitor
- Fully removable tank
- 12 l. detergent tank
- Shock proof trolley
- Floating valve
- Washable cartridge filter
- 10 m power cable
- Easy standing head (during filter cleaning)
- Traceless wheels.
- Accessories Ø 40
- Equipped with connection for compressed air and pressure gauge for foam cleaning

	Windy IE Foam
code	8.239.0017
voltage	220-240V ~ 50-60Hz
n° motors - power (max)	2 - 2000 (2400) W high efficiency motor
column depression	22 kPa/2200 mmH ₂ O
air suction	130 l/s
total volume/dust/liquid	65 l./30 l./40 l.
dimension/weight	44x46x96 cm / 16 kg

Windy IE Foam is an injection/extraction cleaning machine ideal for car cleaning, as it can be used with thick foam or liquid detergent. Windy IE Foam is equipped with a connection for compressed air with pressure regulator and an external tank of 12 liters capacity, which allows the detergent refilling without opening the machine.

Thanks to the special brush the foam can be spread quickly and easily on the car seats or mats and can be removed after few seconds with the transparent nozzle. Being equipped with two high depression vacuum motors, 90% of the foam is recovered with the great advantage of a very fast drying (20 min.) and a better cleaning performance.

Windy IE Foam is ideal for the pre-washing of the car body, rims and engine. Using the lance with the 7 meters hose can be produced a thick foam that will stay on the dirty components, giving more effectiveness to the detergent. Windy IE Foam is also an excellent two motors wet & dry vacuum cleaner with 65 liters of tank capacity.

Fields of applications

Washing of: car body and interiors, carpets, sofas, restrooms, kitchens and wherever is necessary to wash and sanitize.

Users:

Car dealers, car washers, garages, car body shops, contractor cleaners and any other user which is provided with a source of compressed air; in the absence of a compressed air system, Windy IE Foam can also be used in combination with a small 24 liters compressor.
