- Accessories

BRUSHES

Brushes Black 0.25

Softer brushes for wooden floors or where the harder brushes might scratch. Good also for your boatdeck.

Brushes lightblue 0.3

Soft brushes for textile and carpet cleaning.

Brushes white 0.4

Standard brushes for normal use.

Brushes blue 0.4

Colour code your brushes for different areas of cleaning.

Brushes red 0.4

Colour code your brushes for different areas of cleaning. Use the red ones to clean sanitary areas.

Brushes white 0.6

Standard brushes but harder, for more heavy duty cleaning.

Brushes Grit 1.0

Stainless steel brushes (Inox) to remove rust and metal cleaning.

PADS

Non-Abrasive pads white

For polishing and general dry and spraycleaning.

Abrasive pads red

For general cleaning of treated floors, walls and half-gloss polishing.

Abrasive pads blue

För allmän sprayrengöring och underhåll av obehandlade golv och väggar.

Abrasive pads green

For wet cleaning.

Abrasive pads brown

For serious scrubbing and polish removal

Abrasive pads black

Abrasive heavy duty wetstripping pads.

Abrasive pads mixed colours

Mixed pads for different use. Please see the different colours to understand what areas they are to be used in.

Microfiber pads

Environmental friendly pad to be used without chemicals on painted surfaces, carpets, textiles and ceramics.

COBRA PADS

Grit 120

Pad for polishing. Medium fine structure. For polishing marbel, concrete and natrual stone.

Grit 320

Pad for polishing. Extra fine structure. For polishing marbel, concrete and natrual stone.

Grit 800

Pad for polishing. Ultra fine structure. For polishing marbel, concrete and natrual stone.

Grit 1000

Pad for polishing. Micro fine structure. For polishing marbel, concrete and natrual stone.

OTHER ACCESSORIES

Shoulder/Waist carry case

Smart case to wear around your waist or over your shoulder. Suitable to carry your accessories like extra brushes, pads or a second battery.

Caddy Clean carry case

A convenient case to carry your complete Caddy Clean together with your accessories. Let you keep your equipment organized at the same toime as you carry it handy from place to place.

In-car charger 120mm

Will fit to a standard lighter plug in a car, boat or on a scrubbing machine. Pay attention that this is only for temporarily charging in the field as the battery normally should be charged by a smart-charger. Leaving the battery in this charger for a long time may destroy the battery.

Cable for car battery 1500mm

A spiral cable with connector for car or boat. Extendable up to 7 m. So you can run your Caddy Clean direct from a 12 VDC car battery. (Cigarette lighter connector)

AC - adapter

AC-Adpter with 3 M cable. EU-plug.

You can use your Caddy Clean with 220 VAC.
